

ACFA + HD

ACFA sets a new standard in façade innovation. Our ACFA+HD (12.5 mm) boards are the only cement board cladding system in Saudi Arabia to have successfully passed full-scale façade performance testing by Thomas Bell-Wright Laboratories.

Ensuring compliance, safety, and endurance in real-world conditions. No leaks. No failure. No compromise. Designed to perform under extreme weather, from dynamic wind pressure to water resistance, while maintaining timeless aesthetic appeal.

Certified by Thomas Bell-Wright Saudi Arabia
First full façade test passed in the Kingdom
Zero leakage – Zero deformation – 100% resilience
Proudly made and tested in Saudi Arabia
